Insurance for your Business

Every business has unique requirements. And your commercial insurance policy should be designed to protect your business and company assets. Are you aware that most companies close their doors and never re-open after a catastrophic event? Your broker can help you assess your company's risks and support you through a major claim to avoid being one of those statistics.

A J. W. Davis broker will advise you on how to reduce more of the manageable exposures within your business and suggest an insurance mix that takes your risk tolerance into account. Factors involved in rating a commercial insurance policy are:

1. Descriptions of operations
2. Value of Equipment, Stock & Assets
3. Annual receipts
4. Experience within industry

Your J. W. Davis commercial insurance broker has the experience to help you manage the insurance risks in your business.

A J. W. Davis Broker is there to help explain coverage options, insurance rates, the claims process, and any questions you may have about your policy or insurance in general. Your broker can also help explain some of the auto insurance myths involving:

1. Accident Benefits Coverage
2. Lending your car
3. 'No-Fault' insurance
4. How to cancel a policy
